Usage

- Beamer is a powerful and flexible LaTeX class to create great looking presentations.
<https://www.overleaf.com/learn/latex/Beamer>
- Modify from Template Beamer UFC [1]

Features

The visual design follows **VISUAL IDENTITY ASSETS** from XJTLU.

- 1 XJTLU **NAVY** (RGB: 1, 54, 68)
- 2 XJTLU **PURPLE** (RGB: 206, 87, 193)

Success box

Alert box

Simple box

Algorithms (pseudocode)

```
input :x: float, y: float
output :r: float
1 while True do
2   | r = x + y;
3   | if r >= 30 then
4   |   | “O valor de r é maior ou igual a 10.”;
5   |   | break;
6   | else
7   |   | “O valor de r = ”, r;
8   | end
9 end
```

Algorithm 1: Algorithm Example

Algorithms

```
1 def main():  
2     print("Hello World!")  
3  
4 if __name__ == '__main__':  
5     main()
```

code/main.py

Multi-columns

É possível colocar mais de uma coluna utilizando os comandos de `\begin{column}{} e \end{column}`

Porém, o espaçamento deve ser proporcional entre as colunas para que estas colunas não entrem em conflito. O espaçamento é dado pelo segundo argumento do `\begin`.

Figures

Figure: Logo of XJTLU.
